THE BIG ORCHARD · PRODUCT MANUAL

Milano Plan Chest

Fully enclosed, lockable steel plan chest built from interlocking five-drawer sections, with 55 mm deep drawers. A0 or A1, 5 or 10 drawers. This manual covers every size.

Covers models: MM01W, MM02W, MM03W, MM04W

ADJUSTABILITY

Drawers

Each drawer runs on four smooth roller bearings and has a safety stop to prevent accidental removal. Maximum drawer capacity is 40 kg.

> For removing or refitting a drawer, please contact The Big Orchard on +44 (0)1924 291333 or sales@thebigorchard.com.

Each drawer has a chrome D-handle and two black label holders.

Locking

Each five-drawer section has a lock, so the drawers can be locked with a key.

Adding sections and raising the chest

Five-drawer sections stack and securely interlock; a 10-drawer chest is two sections. More sections can be added later. An optional welded steel leg frame, with nylon feet, raises the chest and leaves storage space beneath it.
