KEY FEATURES

- Memory Function
- 7 Year Warranty
- Delivered fully assembled

PRODUCT DESCRIPTION

Combining a fully featured A0 drawing board with an A0 light box, the A0 Denby BEAM-TEC is a specialist light table for any type of creative design, or product inspection.

The dimmable light box features a toughened glass screen and step-less brightness control. The working area is illuminated right to the edge and thanks to the 5500K colour corrected white light, it ensures accurate reproduction of colours.

Low voltage, low power consumption and low operating temperature means it is practical for long periods of use.
