KEY FEATURES

- 7 Year Warranty
- Delivered fully assembled

PRODUCT DESCRIPTION

The A4 Wafer Light Panel is the perfect tool for artists, crafters, and designers alike. Its ultra-slim design, measuring only 0.8cm thick, makes it incredibly portable and easy to take with you wherever you go.

Compact and easy-to-use Beam Box for smaller projects.

The side-lit LED system provides even light distribution, making it ideal for a range of applications, including calligraphy, stencilling, scrap-booking, embossing, quilting, embroidery, and sewing. With full brightness control thanks to the touch sensitive dimmer, you can easily adjust the light to suit your needs.
