PRODUCT DESCRIPTION

The Studio Conservation Sink is a professional-grade, heavy-duty stainless steel sink workstation designed for conservation, textile, paper, and artefact cleaning environments. Measuring 1600mm × 1200mm × 760mm high (on castors), it provides a spacious, deep working basin ideal for wet conservation processes. Custom sizes are available to suit specific studio requirements.

MADE IN THE UK

Specifications are subject to change. See the product page for current prices and options.
